To whom it may concern:

Re: Dr. Hossein Kord

I had the privilege to work with Dr. Kord for about four (4) years.

I am a Family Practitioner and my clinic consistent of two (2) arms.
I practiced allopathic medicine but since I also have a N.D. certification, I was very pleased to have Dr. Kord working with me in that area.

We specialized in chelation therapy, hydrogen peroxide therapy, vitamin infusion, Myers's cocktail, Excalibur IV cold laser treatment, prescribing multiple vitamin related supplements and performed the necessary Urine and Saliva Test Procedures:

- Adrenal stress test
- Vitamin C test
- Oxidata Test
- Malabsorption Test
- Chemstrip Test
- Zinc Tash Test
- Saliva pH Test
- Zinc Support
- Adrenal Support
- Malabsorption Support

We also had a Thyroid/Pituitary Protocol

Dr. Kord not only assisted me with these treatment procedures, but he also had his own population of patients, who spoke highly of his treatment, his personality, his knowledge and passionate support.

We attended several clinical courses together and maintained a high level of clinical skills.

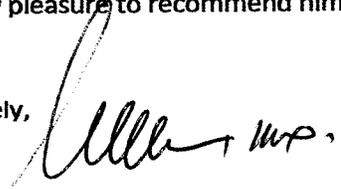

Having seen the quality of care and treatment Dr. Kord offered to his patients, I encouraged him to continue with his certification as a ND Practitioner and to go on to obtain his master's degree.

I also want to mention that Dr. Kord has excellent skill in the computer field and he developed several programs as related to naturopathic therapy.

It has been a pleasure to work with Dr. Kord and only can say the highest praises for his skills and patient relationship.

It is my pleasure to recommend him to any one and any clinical based setting.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Harnisch' with a stylized flourish at the end.

Helmut Kurt Harnisch, MD., Ph.D. ND.
